

Netcat 7b2 Maven STS 70 : Ubuntu

Test Specifications G0 Bugs Found

Scenario Effect Comment Exception found Other

* 1 Test Specification: Maven Support Test Specification NOG0

o 1.1 Test suite: Maven projects G0 1.4 No warning icon before build with deps

build success Bug when build with deps A
org.openide.util.MutexException exception has occurred.

However, the system should continue working without further problems.
Click Show Details for the stack trace. bug report disappear when I click on send and it ask for checking password

1.5 - label of project was ~ "misconfigured Maven Project"

- build failed same 1.4 same 1.4
after restart netbeans the label appears

1.6 success but only 3 projects was created

o 1.2 Test suite: Clean, Build, Run, Debug maven project G0

o 1.3 Test suite: Run, Debug, Profile, Test single file NOG0 1.3.3 failed

Ask for select a java platform but I have only one (a JDK 1.6)

"In-place deployment at

/home/hardion/NetBeansProjects/WebAppPrj/target/WebAppPrj

deploy?

DEFAULT=/home/hardion/NetBeansProjects/WebAppPrj/target/WebAppPrj&name=com.mycompany_WebAppPrj_war_1.0-SNAPSHOT&force=true failed. Instance is not GlassFish Server 3.1.

The module has not been deployed.
